FIT3171 Assignment 1A Assumptions

Group: T6 G58

Members:

- **Garret Yong Shern Ming**
- **Muhd Lai Razi Muhd Silmi**
- **Wong En Xin**

Assumptions:

1. We'd assume that there might be a property that has no bin assigned yet. Hence, we set the cardinality for bin between the relation property to bin, zero to many.
2. We also assume that there might be a street where there is no property built yet. Thus, we set the cardinality for property between the relation street to property, zero to many.
